**LUCIE LLONG** FRENCH PAINTER OF THE "MOVEMENT"

**Lucie LLONG** is a French painter and sculptor, specialized in sports subjects.

She has accepted that her work be used "VTT" (mixed technique, 60x40cm) for the poster of the first Spanish League event of MTBO 2019.

At the awards ceremony each Elite champion will be given a reproduction of the painting signed by the artist.

**We thank Lucie Llong** for her collaboration with the Spanish MTBO, and her unconditional dedication to promoting sports through art.

## II TROFEO VÍA VERDE DE LA CAMPIÑA MARCH 29-30-31, 2019 PROVINCE OF SEVILLE (Fuentes de Andalucía, Marchena, La Luisiana)

Three City Councils of the Sevillian “Campiña” (Fuentes de Andalucía, Marchena and La Luisiana) have opened the doors of their villages to receive the first national event of the year of orienteering on bike, being in turn the second event of the 2019 World Masters Series and the first event of the 2019 Young Guns Series.

Located in the center of these three municipalities, the Via Verde de la Campiña is an old road of railroad connecting Cordoba to Marchena with a total length of 91km. Landscapes with moderate unevenness of the countryside and its complex network of roads makes it idyllic for the practice of MTBO.

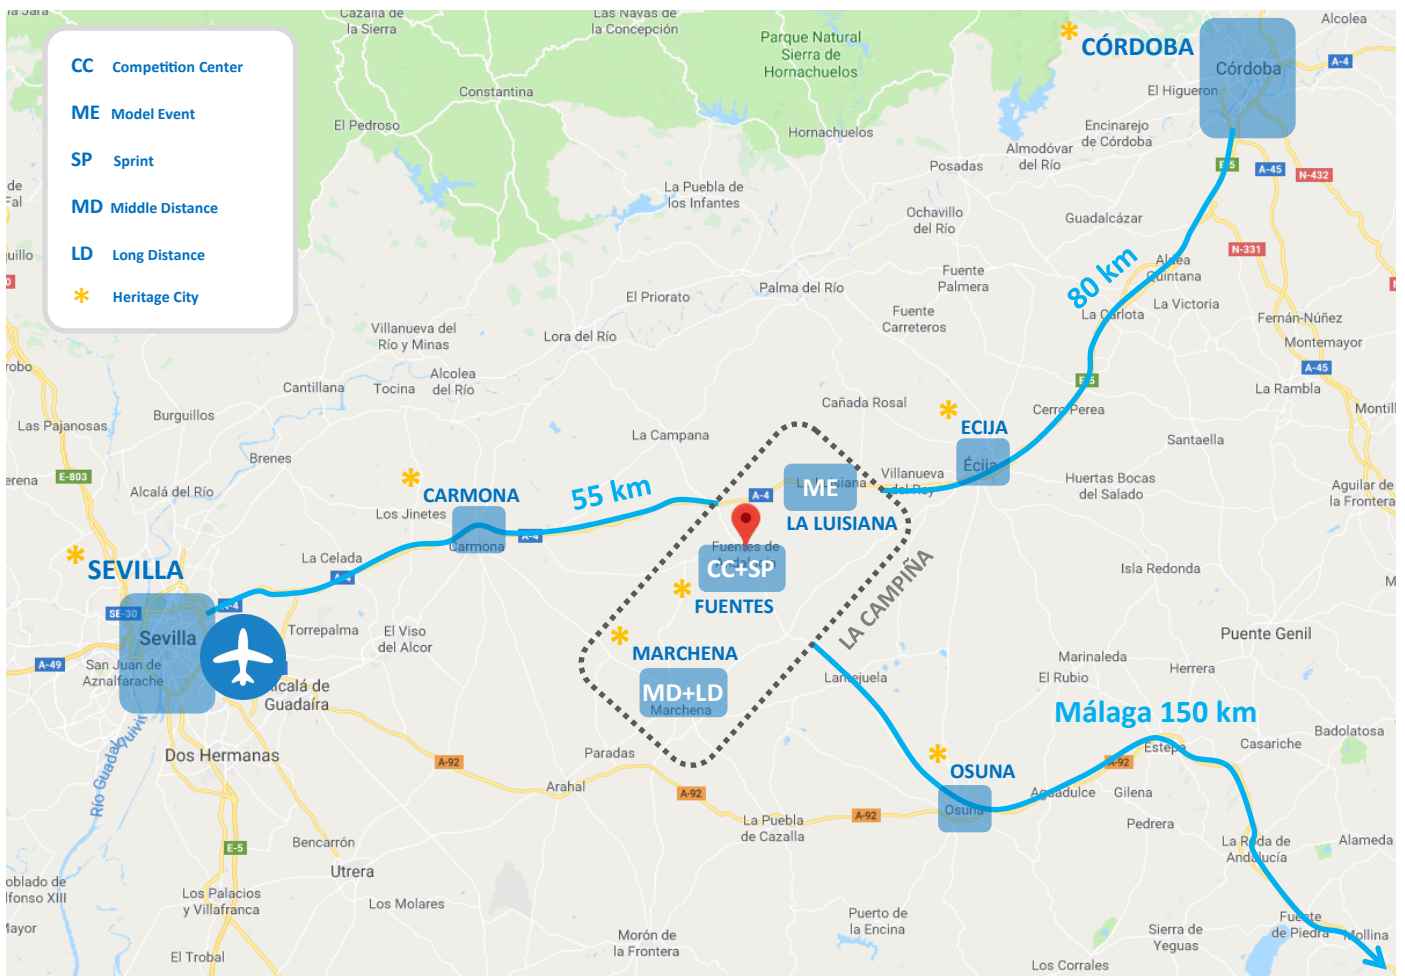

The area is perfectly communicated, being located only 35 minutes by car from Seville, 40 minutes from Cordoba and 1h30 from Málaga with its free highways. Seville and Malaga have airports with national and international flights to all countries of Europe.

We encourage you to live a great experience:

- . New orienteering maps with labyrinthine road network
- . Course with endless choice of route and change of rhythm
- . Digital technology at the service of orienteering to feel the emotion of direct

See you soon!

**SHORT LINE:** There is an obstacle, but you can pass, for example a chain that cross the road (you can pass it up or down)

**ZIGZAG OR GRATED:** Prohibited areas

**MIDDLE DISTANCE AND LONG DISTANCE**

**RULE:** ISMTBO  
**SCALE:** MEDIA DISTANCIA: 1: 15000  
**LONG DISTANCE:** 1:20000  
**EQUIDISTANCE:** 5 METERS FOR BOTH  
**HALF PENDING:** 2%  
**LOCATION:** MARCHENA (SEVILLE)

Map of 40 km<sup>2</sup> with extensive network of roads.

The environment is composed of agricultural farms of cereals and olive groves, as well as small cores of grouped houses and great profusion of isolated building, which cause that there a lot of fences. In general it is a fairly flat area, with the ppresence of some very short section with greater slope in very pecific points.

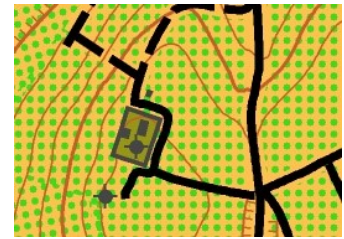

**The cyclability is very hight** because what predominate are wide roads, which together with the extensión of the roads can facilitate high speeds.

**Network of roads:** The paths of goof cyclability (symbol 832) with the presence of some main tracks (831) predonimate. In the cases that low ciclability is mainly due to broken roads by passing agricultural machinery or sand áreas.

**IMPORTANT NOTES**

- 1- Due to the type of terrain, in case of intense rains in the days leading up to the competition, the ciclability can be reduced by one or two levels, as it is a terrain prone to mude formation.
- 2- Due to the agricultural activity we can find road markings of the passage of the machinery for crops, as well as plowed or not. A priori the crops are **NOT CYCLABLE ZONE**, as well as we indicate that this type of machinery brands, unless they are cosntant, have not been mapped.
- 3- In the case of areas between crops in which good ciclability or presence/traces of roads of little use have been estimated, of variable cyclability, but constant in time the **orange color has been used (839.2)**.
- 4- Transit of vehicles: Scarce, mostly agricultural vehicles.

**ABSOLUTE RESPECT FOR AGRICULTURAL PLANTATIONS AND ITS EQUIPMENT IS REQUESTED, AVOIDING CYCLING OUT OF ROADS OR DETERMINED AREAS AS CYCLABLE.**

**1- The departure time** of each competitor will be determined taking into account their difference, in minutes and seconds, with respect to the first of their category in the average middle distance + sprint. This will be done with all competitors that have a difference of up to 30 minutes with respect to the first classified in its category. After 30 minutes from the start of the first runner of each of the categories, the runners who remain to start will do so at 1-minute intervals.

**Example:** An "A" runner from M-E in Saturday's race was 10 minutes and 28 seconds winner in this category. The first M-E runner on Sunday will leave at 10:00 and the "A" runner will depart at 10:10:28

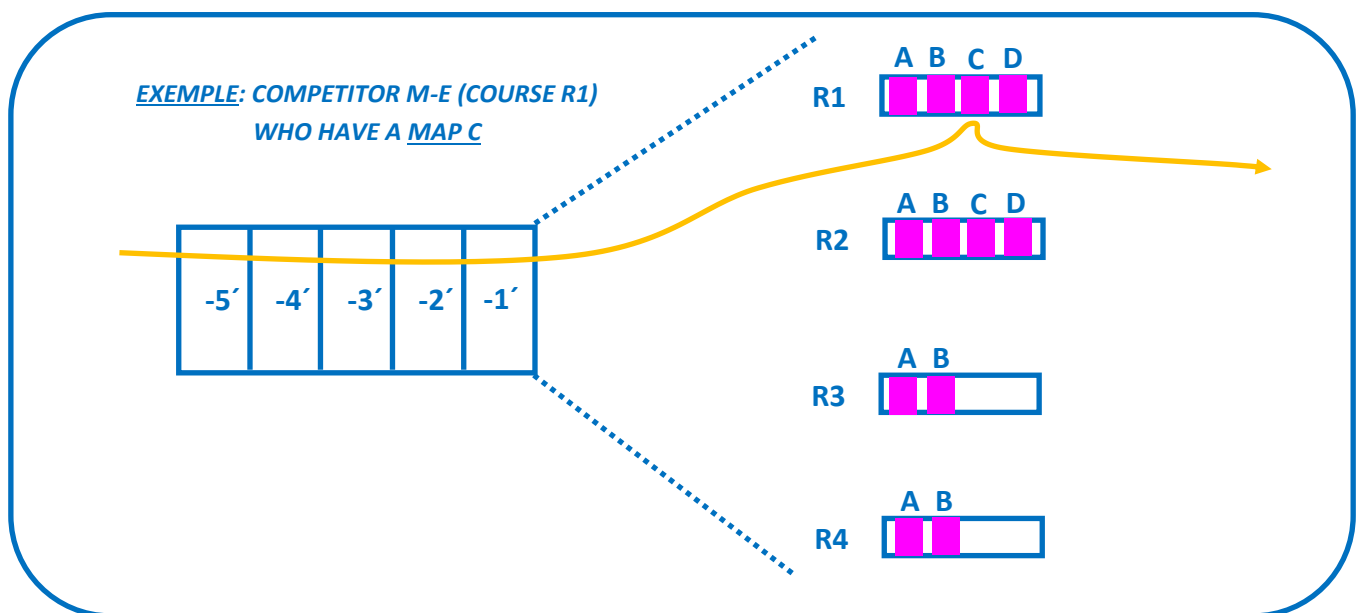

2- The starting time will be displayed on the Hard Ground and website of the Montellano-O club from 9:00 p.m. the previous day. The start time will be available in the competition area from 8:00 on the day of competition.

3- The entrance of the competitor to the start area will be 5 minutes before its hour of beginning of the race. Any runner who arrives late to the departure area should notify the organization and make use of the specific street for late departures. No changes of time are allowed for any circumstance.

4- The race is "one man relay": Each course will have variations allowing to ensure fair play in the race. Upon entering the minute -5 the organization will inform the competitor of its map number (A, B, C or D)

5- It is the runner's responsibility to take the correct map, assigned by the organization in the area -5'

## USE OF THE SIAC - **IMPORTANT**

*ITS OBLIGATED TO PAY A DEPOSIT OF 70 EUROS TO TAKE A SIAC.*

The manufacturer recommends to not pass the control point with a speed higher than 40km/h to make sure that the Siac connects correctly with the electronical control point. The beeping sound of the Siac assures you that the siac made a correct connection with the control point.

We recommend you to not go faster than 40 km/h when you cross the finish line.

Behind the finish line there will be a large zone to reduce your speed for all three races.

## SIZES OF THE MAPS - **IMPORTANT**

SPRINT MAP: 25X30CM

MIDDLE AND LONG DISTANCE MAP: 32X45CM (A3+)

MODEL EVENT MAP: 21X29,7CM (A4)

TRAINING MAP: 21X29,7CM (A4)

## PICK UP OF THE MIDDLE DISTANCE MAPS - **IMPORTANT**

At the finish line of the middle distance race the maps will be collected.

We will give the maps back after the long distance race in the Fuentes competition center (where the prize ceremony will be).

¡ CHANGE OF THE CLOCKS BETWEEN SATURDAY AND SUNDAY !

## WATER PROVISIONING ON THE LONG DISTANCE RACE - **IMPORTANT**

The organisation will provide 3 places to get some water on the long distance race. These places will be clearly marked on the map.

We don't provide this service for the medium distance race.

## DOUBLE SPORTIDENT CONTROL POINT IN THE LONG DISTANCE RACE - **IMPORTANT**

To prevent accidents the organisation decided to put two identical control points at points with a high passing rate. The two identical control points will be on opposite sides of the path within 3m of each other.
